### SUMMARY

Aspiring Software Developer with internship experience in backend development (Node.js, ASP.NET MVC, PostgreSQL) and projects in AI/ML. Strong foundation in Python and JavaScript with proven teamwork and problem-solving skills.

### WORK EXPERIENCE

#### Cygnnet One

Data Analytics and AI & ML Intern

January 2025 - July 2025

- Developed backend for CV Aligner using **Node.js** (MVC pattern) with **MongoDB** & **REST APIs**.
- Migrated legacy databases in HRINNOVA project from **SQL Server** to **PostgreSQL**, ensuring smooth integration.
- Debugged and optimized backend services using **C#** and **ASP.NET MVC** in Visual Studio.
- Collaborated with database and development teams, improving **teamwork** and **communication skills**.

### PROJECTS

#### JARVIS

(Python, SpeechRecognition, Google Generative AI API)

- Built a voice-based assistant with speech recognition & TTS.
- Implemented automation for task execution and AI-powered research.
- Showcased strong Python skills using Pyttsx3 & Google Generative AI.

### EVENTSHAP

(HTML, CSS, JavaScript, SQL, Google Maps API)

- Developed an event management website to help users discover and explore nearby events.
- Designed an intuitive UI with HTML, CSS, and JavaScript, backed by SQL for data handling.
- Implemented features like event listing, filtering, RSVP management, and Google Maps integration for location-based search.

### SKILLS

- Python
- JavaScript
- C#
- ASP.NET MVC
- Node.js
- PostgreSQL
- SQL
- Git

### EDUCATION

SSC - 2019

Som Lalit School

Percentage : 75%

Diploma in Computer  
Engineering - 2019 to 2021

LJ University

CGPA : 8.69

Bachelor of Engineering -  
2022 to 2025 (Ongoing)

LJ University

CGPA : 7.55

### Certificates

- Introduction to Artificial Intelligence(AI).
- Generative AI Introduction and Applications
- Exploratory Data Analysis for Machine Learning
- Building Generative AI-Powered Applications with Python
- Back-End Development with .NET
